

The Leopard

By Mackenzie McGonigle

Leopards are found in...

AFRICA

ASIA

HABITAT

Leopards live in rainforests and jungles and they like grass and leaves. They also like to be up in trees.

A baby leopard is called a cub.

A female leopard carries her cubs for 3 to 4 months and carries 2 to 3 at a time. At birth leopards weigh one pound and grow to be 60 to 200 pounds.

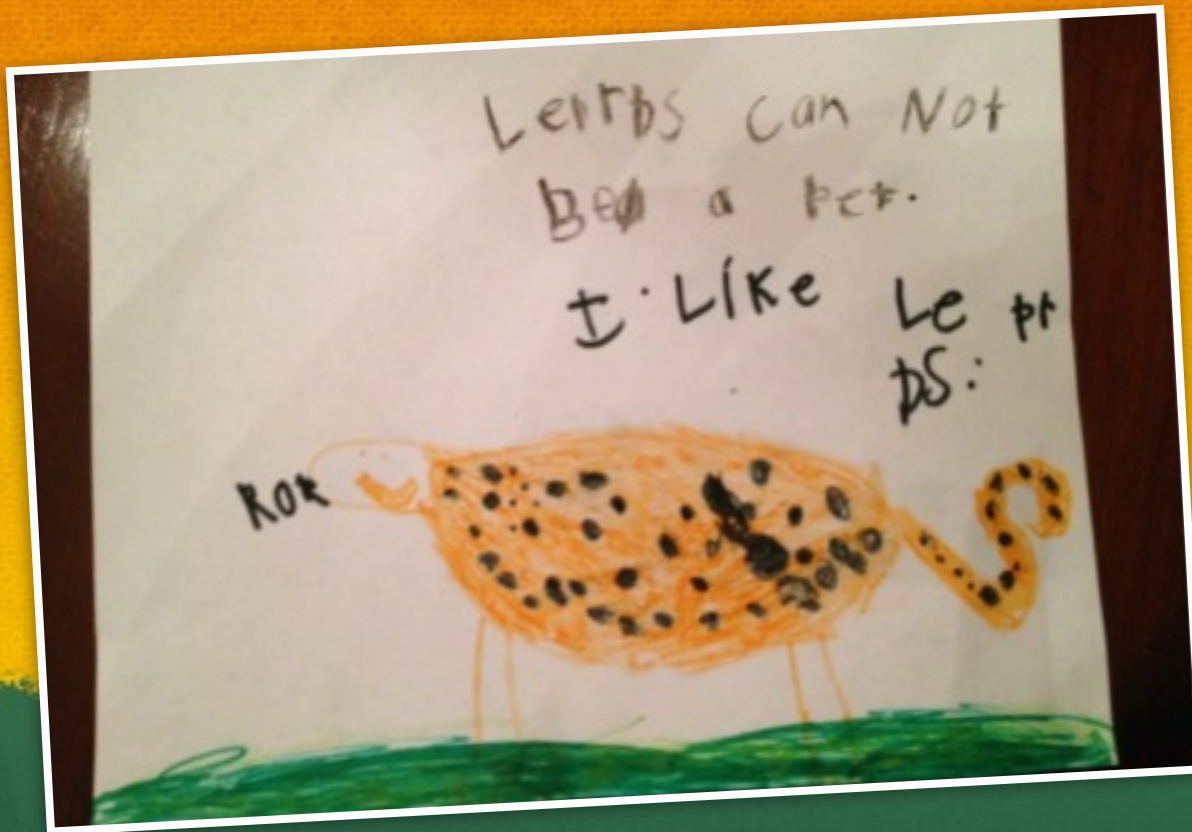

What do leopards eat?

- ❖ Leopards are carnivores, which means they only eat meat.
- ❖ They hunt for zebras, deer, birds, and gazelles.
- ❖ A large animal will feed a leopard for one week.

Fun Facts About Leopards

- ❖ Leopards live for 15 to 20 years in the wild and 18 to 23 years in a zoo.
- ❖ Leopards have sharp claws and are great climbers.
- ❖ Mother leopards carry their cubs by the neck with their mouths.

This is how I draw a leopard.
