

The Flamingo

By Alicia Gagliano

The Flamingo lives all over the world where it is warm

The Flamingo likes to eat bugs and fish like shrimp

The Flamingo has Pink, Orange, or Red feathers

**There are 6
different kinds of
Flamingos**

**The Flamingo
comes from an
egg**

**They can be 5 feet
tall but only weigh
8 pounds!**

- When they talk they make a sound like a goose**
- They can sleep on one leg!**
- They can live 50 years**
- The Flamingo color comes from their food**
- The Flamingo likes to eat with their head upside down!**
